- Milton Tap and Dye has taken on a new life. They have combined efforts with a local chef and now have lunch and dinner Weds-Sun. As the name indicates, they have many beer taps and local IPAs. We've had dinner there a few times and it has been great. No need to dress up, just drop in.

- Milton Bakery is also new in downtown Milton. Local resident has opened it with all local sourced

- Heirloom, A Poppa Paul Restaurant now open in Uptown Roxboro on Depot Street. We had the occasion to visit and were absolutely impressed with what they have done with this historic building. Very nice interior and food was great. It is on scale with any bistro within 100 miles. Try it soon.

- Person-Caswell Lake Authority has installed a new beach area with white sand. It is near the bathhouse and Lake Authority office. No need to travel several hours and pay for a room – everything you need is right here on Hyco whether a resident or visitor.

LAKE LEVEL – You can always get real-time data on the www.hycolake.com web site. The USGS webpage now shows you the elevation above sea level. 410.5' is normal level. You can now get a text message or email if the lake level is at a parameter you set. I've set my notice to occur at 411.5 feet which is 1 foot above normal. This would be the time I need to remove stuff on the dock and make sure the boats are raised high enough to keep them on the lifts! See the link on the USGS site or click here.
